Siwar Soula

Software Engineer

Frontend engineer who cares about how products look and feel as much as how they're built. Experienced in building scalable FinTech applications with micro-frontends and clean, well-tested code.

Skills

React | TypeScript | Next.js | Flutter | Figma | Tailwind CSS

Projects

- **Voxel Art Generation: Three.js - WebGL - Javascript**
  Interactive 3D voxel art scenes with procedural generation.
- **Events Manager : REACT - Nodejs - MongoDB**
  An event CRUD solution - Integrated administrator authentication
- **Optima JE's Website : Wordpress - MYSQL - PHP -figma**
  Developed the official website of the association: https://optimaje.com
